

The Torch operates a large 24-foot-long food truck and standard size catering truck. The Torch reserves the right to pre-approve the location of the event and may require inspecting the site before accepting the event. Due to the weight and size of the food truck, we require a firm and level surface for parking, with a large enough space to move the food truck easily. The Torch does have a generator to power all aspects of the food truck, however, it is recommended to have access to electricity to provide a quieter dining atmosphere for guests. The Torch food truck will need access to 225 amps to adequately power the food truck.
